Medical Tourism

UNCCN is a destination for trusted health

A health tourist focusing on traveling for receiving medical treatment and use of healthcare service overseas.

Within Asia, India is the most preferred destination for medical value travel. Amongst India, Mumbai being an international city, UNCCN has chosen Mumbai to execute its medical tourism project, as it is an international commercial capital of India with well-connected transport across the GLOBE. This paves the way to act even in emergency.

UNCCN based in Mumbai is dedicated to address the overseas patient-related needs ranging from diagnosing, treating, mobilizing the patient from home abroad, and placing the patient in UNCCN impaneled quaternary and tertiary health care centers in the Mumbai and rest of India with the state of the art facility.

UNCCN houses a network of hospitals excelling in modern hi-tech super-specialty hospitals equipped with world-class equipment matched with a team of assorted physicians, surgeons, rehabilitation professionals & paramedical professionals who are leading with the excellence of experience in patient management with an ethical, empathetic, and humanitarian approach.

UNCCN, have representative offices in the USA to facilitate medical travel.

UNCCN promises the placements of the health tourist as per the affordability with a wide range of packages ranging from economy to ultra-luxurious hospital setups as desired by the patient, by excellent surgeons/physicians and accessibility to ultra-modern investigations, cross-cultural flexibility concerning language, food, hygiene, catering, housekeeping aesthetics in all the ranges of impaneled hospitals setups chosen by the patient.

UNCCN follows a systematic process to find out and select the range of consultants expertise to manage the patient's condition. The panel is finalized only after taking the account of the patient's comfort and consent.

The high standards set by UNCCN to nurture patients, the paramedical staff with high-level skill, spontaneity, is assorted and appointed in addition to caregivers.

UNCCN offers a range of allied health services ensuring holistic physical, emotional, spiritual, rejuvenation, and healing through corporate clinics. A health tourist can witness the magnificent glory of India and experience the abundance of spiritual gifts and natural beauty with a tour and travel vacationing program designed for medical tourists.

Yoga Muda and Metta are two specially designed packages by UNCCN offered to medical tourists. Yoga Muda offers corporate health that incorporates Ayurveda, panchakarma, Vedic healing, music therapy etc. Metta offers healthy pregnancy, healthy postnatal care, meditation during pregnancy and post-delivery fitness, yoga, pilates, strength condition, massages promise entire rejuvenation after delivery.

UNCCN welcomes health tourists across the globe to experience life in India.
